

Project: Room Reservation

Team Name: 404 Room Not Found

Webpage Name: R²

Team Members:

Amy Hughes

Anthony Voneiff

Estee Tey

Gionnieve Lim

Kim Nguyen

Iteration 1

Customer Meeting

The customer meeting will be on 1/8/19 at 1:30pm in Little India.

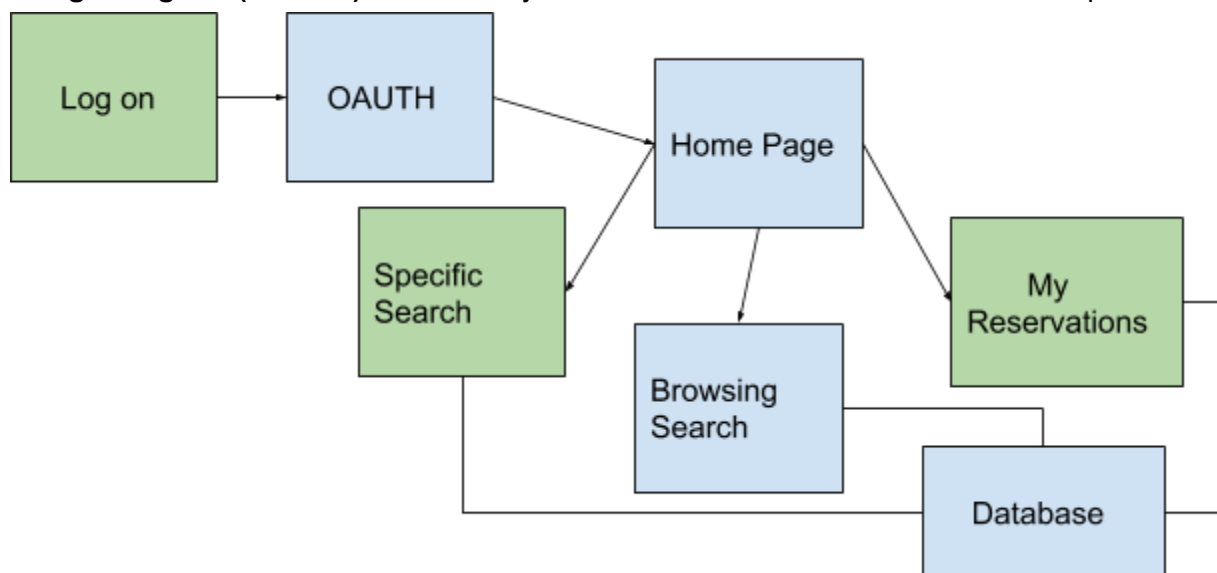

User Stories

1. Feature: Log in
As a user
So that I can refer to them at my own leisure conveniently
I want the platform to store my bookings and remember me
2. Feature: Search for a Room
As a user
So that I can book rooms that comes with what I need inside
I want a search function for room features
3. Feature: See Upcoming Reservations
As a user
So that I can spend less time to get the information that I require
I want to see my reservations within at most a click after login

Design Diagram (Current)

Key: Green = Done

Blue = Needs Improvement

User Stories Not Done and Why?

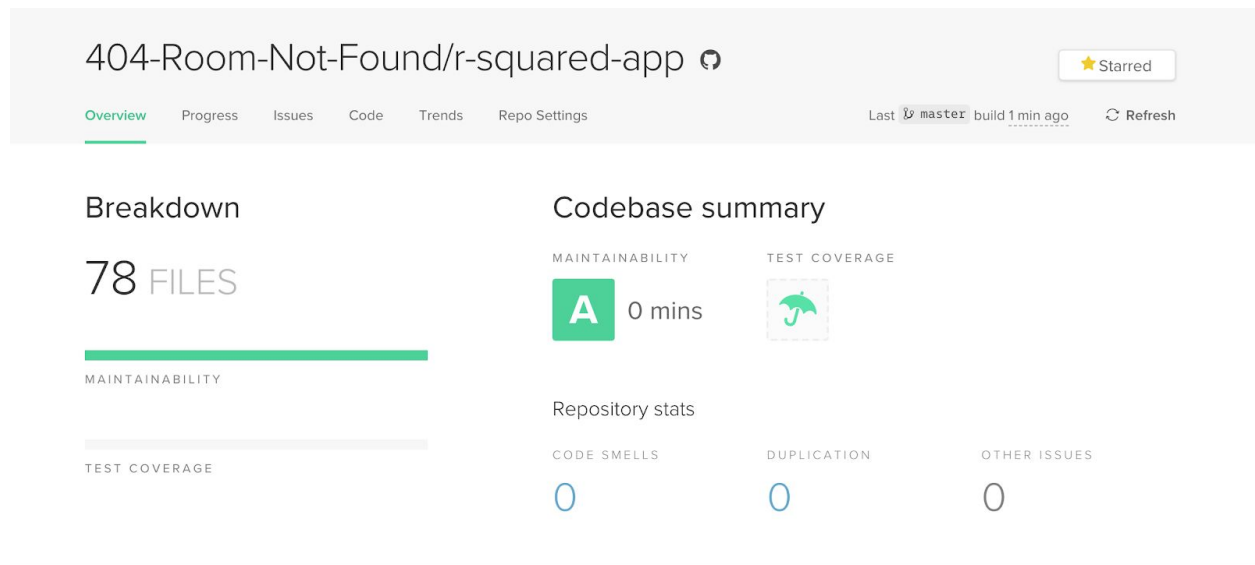

We finished all 3 user stories we had discussed with the client due for iteration 1.

Changes to User Stories

Old	New
Feature: Log in As a user So that I can use my Google account I want to login in with a third party	Feature: Log in As a user So that I can refer to them at my own leisure conveniently I want the platform to store my bookings and remember me
Feature: Book a Room As a user So that I can reserve a room I want to book a room to study	Feature: Book a Room As a user So that I can reserve a room to study with my project group I want to reserve a room

Both of these stories were changed from Iteration 0 because of Dr. Ritchey's feedback.
